

#### Pass & Seymour

Specification Grade PlugTail™ Receptacles 15 & 20A, 125V

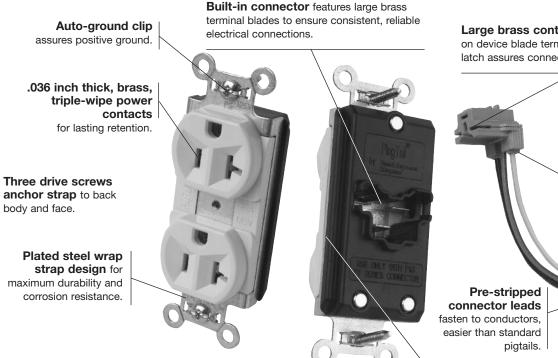

PT5262, PT5362

### PlugTail<sup>™</sup> — The fastest, most consistent and reliable wiring devices – ever.

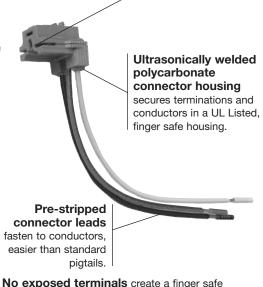

Factory-terminated devices and connectors mean that device installation is the same regardless of skill level of the installer. The UL-Listed connectors are keyed to ensure proper wiring installation into each receptacle. The connector simply snaps into the back of the device — no fussing with wires, stripping, or tightening screws. PlugTail devices are finger safe with no exposed terminals, so taping is not required. Now device installation is a snap!

#### **FEATURES & BENEFITS**

Large brass contacts snugly terminate on device blade terminals. Audible snapping latch assures connection, allows release.
